

## aMaze User Guide

By: Oishi L. Banerjee, Leigh Marie Braswell, and Stephen V. Price

1. Import MazeWithWalls into your IDE (e.g.- Eclipse).
2. Run the program on a device with an accelerometer and Android 4.0 or higher.
3. If the app does not immediately open, click the aMaze icon.
4. To begin play, click the “Beat Our Levels” button.
5. Now, work your way through the levels!
6. Look at the “Brag About Your Times!” to check out your progress.

Note- aMaze is targeted for Nexus 7 tablets. Devices that run a different version of Android or have a smaller screen size may run into bugs.
